

# STEMCYTE™

*StemCyte, Inc. operates one of the largest, most racially diverse cord blood bank networks in the world. Cord blood stem cell units for both public and private use are processed in our StemCyte International Cord Blood Center laboratory in Arcadia, California and our Taiwan National Cord Blood Center in Taipei, Taiwan.*

*Our company mission is to help transplant physicians save lives. And we are doing just that. Our stem cell viability, strict operating procedures and extensive transplant experience are trusted by some of the world's leading transplant centers and hospitals.*

**StemCyte has provided more than 800 cord blood units for the following transplants from November, 2001 through August, 2008.**
